## **DETAILED ACTION**

### ***Allowable Subject Matter***

Indication of allowability of all of the claims is hereby withdrawn in view of the newly found art.

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 1,2,17,18 are rejected under 35 U.S.C. 102(e) as being anticipated by Chen. This patent discloses a process and apparatus for making crumb and powder rubber including removing ferrous metal, removing fiber, initially chilling the remaining stream of material, grinding the stream, and classifying the stream.

### ***Claim Rejections - 35 USC § 103***

Claims 5-16,20-45 are rejected under 35 U.S.C. 103(a) as being unpatentable over Chen. The remaining limitations of these claims would have been obvious design choices only once the basic process and apparatus was known as in Chen. For example, the particular sieve ranges used would depend on several factors such as material being treated and desired end results.

### ***Response to Arguments***

Applicant's arguments with respect to the rejected claims have been considered but are moot in view of the new ground(s) of rejection. The examiner regrets any inconvenience to applicants in finding this new reference at this time.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Mark Rosenbaum whose telephone number is 571-272-4523. The examiner can normally be reached on Monday-Friday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Derris Banks can be reached on 571-272-4419. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
